

Application No.: 10/065,183

Docket No.: JCLA7802-R

**REMARKS**

The undersigned appreciates Examiner Dharia for granting a telephonic interview on April 24, 2006, during which the U.S.C. §103(a) rejection to the pending claims was discussed. During the discussion, the Examiner indicated that the claimed invention contains patentable subject matter, but patentable subject matter is not included in the independent claim.

In response to the Examiner's suggestions, the Applicant has amended independent claim 22 to include the allowable subject matter. Claims 2, 7, 13-17, 19 and 22 have been amended to depend on claim 22 and claims 1, 3-6, 8-12, 18, 20-21 have been canceled. Upon entry of the amendments in this response, the sole independent claim 22 and dependent claims 2, 7, 13-17, 19 remain pending in the present application. No new matter has been added to the application by the amendments made to the claims or otherwise in the application.

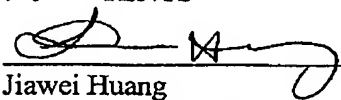

The amended claim 22 contains the limitations of canceled claims 1, 6, 10, and 11, and is patentable over the cited references. In light of the foregoing amendments and for at least the reasons set forth hereinbefore, Applicant respectfully submits that all objections and/or rejections have been traversed, rendered moot, and/or accommodated, and that the now pending claims are in condition for allowance.

Favorable consideration and allowance of the present application and all pending claims are hereby courteously requested. If, in the opinion of the Examiner, a telephonic telephone conference would expedite the examination of the above-identified patent application, the Examiner is invited to call the undersigned.
